- LONG BLACK
- BOUNDARY RIDER
- MILE HIGH CLUB

FLOW TRAILS

are digger-built, smoother, wider and contain bermed corners. They may be enhanced with dirt jumps, ride-on features, gaps and other natural or constructed features. *All flow trails are identified with an orange oval.*

TECHNICAL TRAILS

are designed to embrace the rugged shape and terrain of the mountain. Trails are typically hand-built and feature organic obstacles such as rocks, drops, jumps and other natural or constructed features that require technical riding skills. *Technical trails are identified by just their difficulty symbol.*
