

First Time?

Here are some tips to help you enjoy your first visit to Silver Mountain Bike Park.

1. Stop by the bike patrol in the lower level of the Mountain House for trail selection and advice.
2. For beginner and intermediate riders, we recommend starting on crescent.
3. Interested in riding top to bottom? You should be comfortable on Jackass before heading to the lower mountain.

Trail crossing or intersection

Trail Types

Flow - Wider, smoother trails with large banked corners and rollers. Intermediate and advanced flow trails may also contain machine built jumps. Advanced and expert flow trails may contain drops and jump gaps.

Technical - Narrower, rougher trails with more naturally occurring features such as rocks and roots. Generally steeper than flow trails. Technical trails may contain drops, and may also include natural and machine built jumps.

CHAIR 3 TRAILS

Multi-use Trail

This Trail is open to hikers and mountain bikers. Trail is two-way. Hiking ends at Picnic Rock.

8. Moose Knuckle

Easiest

Gentle climbs and descents with obstacles such as rocks, gravel, roots, bridges, and potholes. Includes both narrow and wide trails. We recommend you are confident riding a bike before attempting these trails.

1. Crescent
4. Payday
5. Cool Neatness
6. Long Dog

Difficult

More Challenging riding which includes steep slopes, narrow trails, poor traction, and many obstacles. Off-road bike riding experience recommended.

Multi-use Trail
This trail is open to hikers and mountain bikers. Trail is two-way. Hiking trail terminates at Picnic Rock. Please turn around and return to Chair 3.

8. Moose Knuckle

POINT OF NO RETURN INDICATORS
Do not leave the CHAIR 3 ZONE until you are prepared to descend the much longer trails to the base of the mountain. Many riders choose to ride the gondola down after a few laps on chair 3.

MOUNTAIN SPECS

Top of Gondola	5700'
Bottom of Gondola	2300'
Bike Park Vertical	3400'
Chair 3 Zone Vertical	800'
Gondola Length	31 Miles

Follow the signs to the Trail of The Coeur d'Alenes. From here it is a 1.5 mile paved trail along the river, back to the Gondola Village.

Please help us be good neighbors, follow traffic laws when returning to the base area.
